Form and architectural judgement

An option still needs a reason to become real

A generated option
needs a reason
to become real.

Idrak, mana, şuur and inşa

Working uses within this presentation

Idrak Understanding context

Mana Significance in relationships

Şuur Intentions, limits and effects

İnşa Understanding made material

Yûnus Emre as an interpretive lens

Self-knowledge, encounter and emanet

Self-knowledge
Encounter
Emanet

Understanding changes the design

An illustrative care-centre entrance

Independence
Shelter
Dignity

Human responsibility in AI-assisted design

Emanet as a criterion for judgement

What does it mean here?

Whom does it affect?

Who answers for it?

AI production and responsible inşa

A conceptual contribution with explicit limits

AI expands possibilities.

We remain answerable
for what we make.
